

## Karen I. Boyd

Axiom Global Inc.  
405 Howard St., Suite 650  
San Francisco, CA 94105

Karen Boyd is the head of the Life Sciences practice at Axiom, an alternative model law firm. She is a mediator, specializing in the resolution and case management of intellectual property disputes and other complex civil litigation. She has been appointed to the Mediation Panels for the United States Court of Appeals for the Federal Circuit and for the Northern District of California. She is also a lecturer at U.C. Berkeley Law School, where she teaches Biotechnology and Chemical Patent Law. In the past, she has also taught Patent and Trade Secret Law at Hastings College of the Law.

Before joining Axiom in 2008, Ms. Boyd was a principal in Fish & Richardson's Silicon Valley office. For a decade, she litigated and tried patent cases, with particular emphasis in the biotechnological, pharmaceutical, and medical device fields.

Ms. Boyd received her bachelor's degree in Environmental Biology from the California State University Northridge, master's degree in Molecular Biology from U.C.L.A., and J.D. from U.C. Berkeley School of Law, where she currently serves on the Board of Directors. After graduating from law school, Ms. Boyd served as Law Clerk to the Honorable Paul R. Michel, Chief Judge (then Circuit Judge) of the United States Court of Appeals for the Federal Circuit.
